

Certificate of Embryo Recovery

See reverse side for coding instructions

Breed: _____

Donor Name: _____ Registration No: _____ Ear Tag or Tattoo: _____

Owner: _____

Address: _____

City, State Zip: _____

Service Sire: _____

Registration No: _____ Breed: _____

ID Code: _____ Sexed Semen X or Y: _____

Freeze Date: _____

Service Sire: _____

Registration No: _____ Breed: _____

ID Code: _____ Sexed Semen X or Y: _____

Freeze Date: _____

Onset Estrus Date: _____ AM / PM
Month / Day / Year

Breeding Date: _____
Month / Day / Year

Recovery Date: _____
Month / Day / Year

Total Recovered: _____

No. Cleaved / Degen.: _____

No. Unfertilized: _____

No. Transferred: _____

No. Frozen: _____

If Frozen

Freeze Date on Straw: _____ (Month/Day/Year)

Straw No.'s: _____

Signature: _____ Firm: _____ ET Code: _____

Practitioner or Leader of the Embryo Team Recovering Embryos

Certificate of Embryo Transfer Recipient Identification

See reverse side for coding instructions

Date of Embryo Transfer if all transferred at one time: _____ (Month/Day/Year) Surgical _____ Non-Surgical _____ Other _____

Days since Estrus of Donor: _____

One Embryo was transferred to each of the following recipients unless it is noted that more than one was transferred.

RECIPIENT IDENTIFICATION	Breed Code	Days Since Estrus	Stage Code	Quality Code	Embryo Manipulated N,D,F,M or U	Straw No.	Embryo Transfer Date	Comments*
1. _____	_____	_____	_____	_____	_____	_____	_____	_____
2. _____	_____	_____	_____	_____	_____	_____	_____	_____
3. _____	_____	_____	_____	_____	_____	_____	_____	_____
4. _____	_____	_____	_____	_____	_____	_____	_____	_____
5. _____	_____	_____	_____	_____	_____	_____	_____	_____
6. _____	_____	_____	_____	_____	_____	_____	_____	_____
7. _____	_____	_____	_____	_____	_____	_____	_____	_____
8. _____	_____	_____	_____	_____	_____	_____	_____	_____
9. _____	_____	_____	_____	_____	_____	_____	_____	_____
10. _____	_____	_____	_____	_____	_____	_____	_____	_____

Signature of person transferring embryos: _____

Firm: _____ ET Code: _____ Phone No: (_____) _____

A copy of this form must be on file with the International Dairy Cattle Registry and a copy of this form must be submitted with the recipient marked before resulting calves can be registered.

*ALL resulting offspring MUST be DNA typed and both sire and dam DNA typed BEFORE registration if more than 1 sire is used.

INSTRUCTIONS FOR COMPLETING EMBRYO CERTIFICATES

- A. Complete one or more Certificate of Embryo Recovery for each recovery. Precede registration numbers of donor dam and donor sire(s) with the International Standards Organization (ISO) three letter country codes (cc). The responsible practitioner or leader of embryo production team signing this certificate is attesting to the fact that the donor dam was identified with her certificate of registration, that the service sire information was taken from a written record of services, and that all the information is true and correct.
- B. Certificate of Embryo Transfer will be completed to the extent that is necessary and/or appropriate to identify each recipient into which an embryo is transferred. If frozen embryos are transferred, the Certificate of Embryo Recovery will be completed by the responsible practitioner or by transferring from the original Certificate of Embryo Recovery or by attaching a copy. The practitioner or leader of embryo production team signing the Certificate of Embryo Transfer is attesting to the accuracy and completeness of the identification of the embryos being transferred and the identity of the recipients into which the embryos are being transferred. Days since estrus will be expressed in 1/2 day increments.

One copy of a complete Certificate of Embryo Transfer with Certificate of Embryo Recovery will be submitted to the appropriate breed office as required by the respective breed organization, which may require the record before resulting offspring can be registered or officially identified. One copy should be provided to the owner.

Should any embryo in a recipient as identified hereon change ownership, it is important that the requirements of the respective breed organization for recording the identification of the new owner be followed. This may be required before resulting offspring can be registered or officially identified. This would normally be the responsibility of the owner of record.

Use the following codes to describe the embryo, identify the breed and identify the month in all dates.

STAGE OF DEVELOPEMNT

No.	Stage
1	- Unfertilized
2	- 2 to 12 cell
3	- Early Morula
4	- Morula
5	- Early Blastocyst
6	- Blastocyst
7	- Expanded Blastocyst
8	- Hatched Blastocyst
9	- Expanded Hatched Blastocyst

QUALITY OF EMBRYOS

Code 1 - Excellent or Good
Code 2 - Fair
Code 3 - Poor
Code 4 - Dead or degenerating
Refer to IETS Manual
Chapter 9, for
description of codes.

MANIPULATION OF EMBRYOS

N - Not Manipulated
D - Divided
F - Female by Biopsy
M - Male by Biopsy
U - Sex Undertermined by Biopsy
Use comment column to describe other biopsies.
